-- As Reported by Exporters

NOTICE TO USERS: The new marketing year for cotton, cottonseed and rice began August 1. Outstanding sales of these commodities scheduled for 1975-76 export; against which deliveries were not made by July 31, were carried forward by reporting exporters and are included with other sales for delivery in the 1976-77 marketing year. Special tables showing summary data for the 1975-76 marketing year are published at the end of this report.

EXPORT SALES REPORT

Comments on release of August 12, 1976 (based on reports from exporters for the week ending August 1, unless otherwise noted):

Corn: New crop corn sales continue to be active with Eastern Europe in the limelight. Eastern Europe's new crop purchases, including this week's daily reported sales, have reached 2.4 million MT, nearly two-thirds as much as their purchases during the current marketing year. East Germany has been the major buyer with 1.6 million MT or 13% more than their purchases during the current marketing year. It is expected that sales to this area will continue to reflect the European drought and their decreasing dependency on the U.S.S.R. as a grain supplier.

Barley: East Germany purchased 100,000 MT of barley, however, it is an optional origin sale. If U.S. barley is shipped, it would represent 158% of last year's purchases by East Germany. West Germany and Japan bought smaller quantities of U.S. origin.

Wheat: Significant developments were lacking this past week with foreign buyers remaining on the sidelines closely watching world prices. Export clearances were relatively slow. The only notable features were the 100,000 MT purchase by East Germany and a 70,000 MT commercial purchase by Egypt.

Rice: Preliminary indication of 1975/76 rice exports point to an outgo of around 1.7 million MT, roughly a fourth below crop year 1974/75's shipments. Around 180,000 tons of rice originally scheduled for export during 1975/76 spilled over into 1976/77. A majority of this was PL-480 sales. Sales of new crop rice continue light reflecting the lack of activity in the world's rice market.

Cotton: Total sales this week continued large, although off from last week's heavy volume. Japan, India, and Korea were the major buyers. For the four week period ending August 1, sales totalled 615,000 R.B. compared with 574,000 R.B. during the previous four week period.

Exports for the 1975/76 marketing year were about 3.2 million R.B., close to the USDA export projection. This left about 574,000 R.B., originally intended for shipment in 1975/76 to be added to sales for shipment during 1976/77. Asian countries account for the majority of these carryover sales.

Export sales for 1976/77 now stand at about 2.8 million R.B. or 65% of the USDA export projection and well ahead of last year's sales of 1.9 million R.B. as of this date.

Soybeans: Sales activity continued slow. The decline in 1975/76 export commitments this week reflected late season adjustments in contracts. Total commitments for the year continued to run slightly in excess of the official export projection.

Soybean Cake and Meal: Exports during the week were highlighted by shipments to Poland and Yugoslavia of 22,300 MT under CCC Credit. Sales to unknown destinations declined by 14,400 MT.

Grain Sorghum, Oats, Rye, and Soybean Oil: Showed no significant activity.
